I can't say enough good things about All-Star Roofing. Having worked 30 years as a commercial property manager, I was truly blessed to have found Ron and All-Star Roofing to service a portfolio of buildings. They recently installed a new flat roof on a 55,000 sq.ft. industrial building and throughout the job, I received detailed progress reports along with photos showing each stage of completion. Ron goes over and above to ensure nothing less than an A+++ job, which is not only recognized by his customers but also by Firestone. They are extremely reliable and highly professional specialists in flat roofs. I also appreciate that photos and diagrams of the roof, before and after repairs, are included with all correspondence. Thank you Ron and everyone at All-Star Roofing for being just a phone call away from the headaches of leaky flat roof problems.... My Tenant's also thank you!

Sincerely,

KOACK ASSOCIATES, LLC.
